CROSSWINDS

THE TERRACES OF  
LAUSANNE

## The Terraces of Lausanne : Inspired by stunning Swiss mountain resorts

Crosswinds is the country's only pine estate, with over 23,000 pine trees that lend their heady scent to the cool air that jackets the development. It is decked with quaint chalets offering the fun of a first-class Swiss resort and commercial strip.

Because of its charm and prime location, homes in Crosswinds are in very high demand. In response to this, another property beside the estate is being developed, dubbed as "Lausanne" -- a rolling 24-hectare mixed-use development.

Rising contiguous to Crosswinds, The Terraces of Lausanne boasts enchantingly sweeping panoramas, with views of Laguna de Bay, Manila Bay and the lush hills of Tagaytay.
